

• BETA LAUNCH • 18 JULY 2026

IMPACT
Saathi™
Giving, guided by intelligence.

Giving, guided by *intelligence.*

India's AI-powered platform built for what happens **after the donation** — automated 80G receipts, real-time fund-utilization transparency, and audit-ready compliance connecting **NGOs, Corporates, Donors and Volunteers** on one trusted ecosystem for transparent, compliant and measurable impact.

✦ AI-Powered

DPDP Act 2023

80G · Income Tax Act 1961

FCRA-Aware

NGOS · CSR CORPORATES · DONORS

www.impactsaathi.com

Compliance on autopilot. More time for your *mission*.

Every hour spent formatting receipts, chasing spreadsheets and answering donor queries is an hour taken from the field. Impact Saathi automates the entire post-donation workflow — so your team runs programs, not paperwork.

Automated 80G Receipts

Legally complete receipt PDFs with all 18 mandatory fields, sequential numbering per financial year, delivered by email and WhatsApp within minutes of payment confirmation.

Campaigns & Embeddable Widget

Launch branded fundraising campaigns and embed a secure donation form on your own website with a single script tag. Donors give in seconds — no login required.

Fund-Utilization Updates

Share photos, beneficiary counts and impact stories with every donor via WhatsApp and email — the transparency loop that turns one-time givers into repeat supporters.

Donor & Volunteer Management

DPDP-consented donor records with masked PII, one-click receipt resend, plus skill-based volunteer registration, matching and hours tracking.

Certificate Expiry Guard

Automatic monitoring of 80G, 12A and FCRA certificates with alerts at 60, 30 and 7 days before expiry — never lose donation eligibility by surprise.

Multilingual & Support-Backed

English and Hindi across donor pages, receipts and WhatsApp templates, backed by a dedicated support desk that resolves issues on your behalf.

< 5 min

from payment confirmation to a compliant 80G receipt in the donor's inbox — versus days of manual preparation.

100%

of donations audit-trailed end to end — every receipt, message and rupee accounted for, ready for auditors.

2×

transparency drives generosity — donors who see where funds go are far more likely to give again.

• Cloud Hosted

• DPDP Ready

• End-to-End Audit Trail

• Enterprise Grade Security

Every rupee visible. Every report *board-ready*.

Section 135 made CSR a mandate. Impact Saathi makes it measurable — one consolidated view across every NGO partner, with the compliance evidence your board, auditors and regulators expect.

Multi-NGO Consolidated Dashboard

Total giving this FY, amount donated vs utilized per NGO, active programs and pending updates — your entire CSR portfolio on a single screen.

Board-Level Compliance Reports

Generate consolidated, compliance-ready PDF reports by financial year and NGO — evidence-backed documentation for board meetings and statutory filings.

Partner Certificate Health

Red and amber flags across all sponsored NGOs the moment an 80G, 12A or FCRA certificate approaches expiry — de-risk your giving before it becomes a finding.

Real-Time Utilization Visibility

Field photos, beneficiary counts and utilization percentages flow from NGO to your dashboard as they happen — plus a direct message thread with each NGO admin.

✦ THE INTELLIGENCE LAYER

AI that works for impact — *not just dashboards*.

Impact Saathi's intelligence layer converts compliance data into actionable insights — for corporates choosing partners, NGOs retaining donors, and government bodies seeking transparent, auditable giving.

PLANNED

● AI SDG Tagging & Matchmaking

Auto-mapped to UN SDGs, matched to the right CSR partners.

PLANNED

● Donor Intelligence & Churn Prediction

Predicts donor churn and repeat-giving, so outreach hits where it converts.

PLANNED

● Anomaly & Compliance Signals

Flags unusual patterns and compliance gaps before they escalate.

PLANNED

● Skill-Based Volunteer Matching

Matches volunteers to campaigns by skill and availability.

AI capabilities roll out progressively, beginning post-beta.

India's giving is growing. *The systems supporting it must evolve too.*

₹35,000+ Cr

Annual CSR ecosystem opportunity in India, deployed and reported each year under Section 135.

8 in 10

CSR and NGO workflows rely on multiple tools and manual processes — making transparency and audit readiness harder to achieve at scale.

2%

of average net profit companies must spend on CSR — making auditable evidence a boardroom necessity.

Day One

DPDP Act 2023, 80G and FCRA compliance built in from the first line of code.

EARLY MOMENTUM

SUPPORTED BY

FOUNDING PARTNER PROGRAM

For NGOs

- Free onboarding during beta
- Dedicated support
- Influence product roadmap

For Corporates

- Founding Partner recognition & early access
- Direct product feedback channel
- Preferential commercial terms
